JOURNAL OF DENTISTRY

Index to Volume 24(1996)

Article index
Numbers 1,2

Industry — university collaborations: a necessity for the future
R.M. Davies **3**

Anorexia and bulimia nervosa (the eating disorders): conditions of interest to the dental practitioner
N.D.Robb and B.G.N.Smith **7**

Chronic alcoholism: an important condition in the dentist-patient relationship
N.D. Robb and B.G.N. Smith **17**

In vivo evaluation of a feldspathic ceramic system: 2-year results
K.-H. Friedl, G. Schmalz, K.-A. Hiller and A. Saller **25**

Proximal wear rates by tooth position of resin composite restorations
S.L. Wendt Jr, T.L. Ziemiecki and K.F. Leinfelder **33**

Effect of replacement of dental amalgam on oral lichenoid reactions
J. Bratel, M. Hakeberg and M. Jontell **41**

Clinical significance of dental root canal microflora
B.P.F.A. Gomes, J.D. Lilley and D.B. Drucker **47**

Morphological characterization of tube-like stuctures in hypersensitive human radicular dentine
M. Yoshiyama, T. Suge, A. Kawasaki and S. Ebisu **57**

Rings and watches: should they be removed prior to operative dental procedures?
E. A. Field, P. McGowan, P K. Pearce and M. V Martin **65**

Adaptation of a resin composite *in vivo*
T. Yanagawa, H. Chigira, A. Manabe, K. Itoh, H. Hisamitsu and S. Wakumoto **71**

Microbiological study of selected risk areas in dental technology laboratories
J. Verran, S. Kossar and J.F. McCord **77**

An *in vitro* comparative study of a reciprocating scaler for root surface debridement
A. Lee, P.A. Heasman and P.J. Kelly **81**

Effect of mechanical load cycling on the marginal integrity of adhesive Class I resin composite restorations
A.I. Abdalla and C.L. Davidson **87**

Caries inhibition by a resin-modified and a conventional glass ionomer cement, *in vitro*
S.M. Dunne, J.S. Goolnik, B.J. Millar and R.P Seddon **91**

Preparation of void-free casts from vinyl polysiloxane impressions
H. Sherfudhin and M.A. Abdulla **95**

Sprue design in removable partial denture casting
C.A. Burnett and H. Maguire **99**

Water absorption of (RTV) silicone denture soft lining material
M.G.J. Waters, R.G. Jagger and R.W. Winter **105**

Corrosive properties of fluoride-containing odontologic gels against titanium
F. Toumelin-Chemla, F. Rouelle and G. Burdairon **109**

The ball mill as a means of investigating the mechanical failure of dental materials
N.H. Abu Kasim, D.T Millett and J. F McCabe **117**

Diffusion of monomers from bonding resin–resin composite combinations through dentine *in vitro*
T.M. Gerzina and W.R. Hume **125**

Composite inlay/luting resin bond strength–surface treatment effects
A.C. Shortall, R.L. Baylis and H.J. Wilson **129**

The efficacy of practical participation in undergraduate dental education
M.D. Russell, J.M. Bill and M.T.S. Orr **137**

Wear: mechanisms, manifestations and measurement. Report of a workshop
L.H. Mair, T.A. Stolarski, R.W. Vowles and C.H. Lloyd **141**

Number 3

Dental materials: 1994 literature review
C.H. Lloyd and S.N. Scrimgeour **153**

The use of panoramic radiology in dental practice
V.E. Rushton and K. Horner **185**

Five-year performance of high-copper content amalgam restorations in a multiclinical trial of a posterior composite
N.H.F. Wilson, D.G. Wastell and R.D. Norman **203**

Effects of acidic conditioners on dentine demineralization and dimension of hybrid layers *S. Uno and W.J. Finger* **211**

Shear bond strength of four dentinal adhesives applied *in vivo* and *in vitro*
P.N. Mason, M. Ferrari, M.C. Cagidiaco and C.L. Davidson **217**

Laboratory evaluation of three visible light-cured resinous liners
A.I. Kakaboura, G.C. Eliades and G. Palaghias **223**

Number 4

Restoration of the partially edentulous mouth — a comparison of overdentures, removable partial dentures, fixed partial dentures and implant treatment
E. Budtz-Jörgensen **237**

Effect of early or late eruption of permanent teeth on caries susceptibility
J.I. Virtanen, R.S. Bloigu and M.A. Larmas **245**

The clinical performance of cantilevered resin-bonded bridgework
D.L. Hussey and G.J. Linden **251**

Factors influencing the selection of restorative materials in dental care in Finland
H. Forss and E. Widström **257**

Temperature changes in bovine mandibular bone during implant site preparation: an assessment using infra-red thermography
I.C. Benington, P.A. Biagioni, P.J. Crossey, D.L. Hussey, S. Sheridan and P.-J. Lamey **263**

Low force cementation
P.R. Wilson **269**

A comparative study of fluoride-releasing composite resin and glass ionomer materials used as fissure sealants
W.P. Rock, E.E. Foulkes, H. Perry and A.J. Smith **275**

An *in vitro* investigation of cast post and partial core design
A. Patel and D.L. Gutteridge **281**

Antimicrobial abilities of various dentine bonding agents and restorative materials
C.J. Palenik and J.C. Setcos **289**

Effect of surface modified fillers on the water absorption of a (RTV) silicone denture soft lining material
M.G.J. Waters, R.G. Jagger and R.W. Winter **297**

Cyclical deformation behaviour of denture soft lining materials
K.R. Williams, R.G. Jagger, S. Sadamori and M.G.J. Waters **301**

Number 5

Ten years' clinical evaluation of three luting cements
A. Jokstad and I.A. Mjör **309**

A 3-year clinical evaluation of a porcelain inlay system
A.J.E. Qualtrough and N.H.F. Wilson **317**

Patient recognition of recrudescent herpes labialis: a clinical and virological assessment
P.J. Lamey and P.A. Biagioni **325**

The effect of subgingival calculus on the validity of clinical probing measurements
V. Clerehugh, R. Abdeia and P.S. Hull **329**

Dental aesthetics—a survey of attitudes in different groups of patients
P.K. Vallittu, A.S.J. Vallittu and V.P. Lassila **335**

Comfort and frictional properties of dental gloves
A.D. Roberts and C.A. Brackley **339**

Oral species of Fusobacterium from human and environmental samples
E. Gaetti-Jardim Jr, F. Zelante and M.J. Avila-Campos **345**

Cross-infection control: the role of "in-training" dental nurses
D.W. Sarll, J.H. Jones and M.A. Ashton **349**

Autotransplantation of premolars and molars in patients with tooth aplasia
K.A.M. Marcusson and E.K. Lilja-Karlander **355**

Intra-oral computed radiography—an *in vitro* evaluation
K.F. Lim, E.E.-M. Loh and Y.H. Hong **359**

Fluoride and hard cheese exposure on etched enamel in neck-irradiated patients *in situ*
I. Gedalia, E. Braunstein, I. Lewinstein, L. Shapira, P. Ever-Hadani and M. Sela **365**

Quantification of facial morphology using sereophotogrammetry—demonstration of a new concept
F. Ras, L.L.M.H. Habets, F.C. van Ginkel and B. Prahl-Andersen **369**

The application of ESEM in dental materials research
A.J. Cowan, N.H.F. Wilson, M.A. Wilson and D.C. Watts **375**

Number 6

Interpretation of bitewing radiographs. Part 1 Evaluation of the presence of approximal lesions
I. Eli, E.I. Wiess, A. Tzohar, M.M. Littner, I. Gelernter and I. Kaffe **379**

Interpretation of bitewing radiographs. Part 2 Evaluation of the size of approximal lesions and need for treatment
I. Eli, E.I. Wiess, A. Tzohar, M.M. Littner,I. Gelernter, and I. Eli **385**

Marginal breakdown of 5 year-old direct composite inlays
J.W.V. van Dijken and P. Hörstedt **389**

Demineralization effects of 10 percent carbamide peroxide probing measurements
M.S. Mccracken, and V.B. Haywood **395**

A clinical comparison of a light cured glass ionomer sealant restoration with a composite sealant restoration
N.M. Kilpatrick, J.J. Murray and J.F. Mccabe **399**

Resistance to fracture of teeth with various preparations for amalgam
G.A. Caron, D.F. Murchison, R.B. Cohen and J.C. Broome **407**

SEM observations of the reactions of the components of a light-activated glass polyalkenote (ionomer) cement on bovine dentine
K.C. Titley, D.C. Smith and R. Chernecky **411**

Spectroscopic changes in human dentine exposed to various storage solutions — short term
S.E. Strawn, J.M. White, G.W. Marshall, L. Gee, H.E. Goods, and S.J. Marshall **417**

The influence of absolute humidty on shear bond adhesion *P.J.J.M. Plasmans, N.H.J. Creugers, R.J. Hermsen and M.M.A.Vrijhoef* **425**

Effects of hexafluorosilicate on the precipitate composition and dentine tubule occlusion by calcium phosphate
A. Kawasaki, K. Ishikawa, K. Asaoka and S. Ebisu **429**

Regional bond strengths of resins to human root dentine
M.*Yoshiyama, R.M. Carvalho, H. Sano, J.A. Horner, P.D. Brewer and D.H. Pashley* **435**

Thermographic assessment of dentine pin placement
P.A. *Biagioni, D. Hyssey, C.A. Mitchell, D.M. Russell and P.- J. Lamey* **443**

Shear bond strengths of two commerically available dentine-amalgam bonding systems
T. Hasegawa and D.H. Retief **449**

UMI
